## ABOUT ME

---

Specialist in machine learning and data analysis. Experience in deploying models and pipelines to production. Participated in projects and hackathons.

## EDUCATION

---

**Specialist Degree, "Computer Security"**

**National Research University Higher School of Economics (HSE),**

2022-2028

*Moscow Institute of Electronics and Mathematics*

## TECHNICAL SKILLS

---

**Programming Languages:** Python, C++

**Machine Learning Frameworks:** CatBoost, XGBoost, Transformers, LangChain, PyTorch, Scikit-Learn

**Data Analysis:** Pandas, NumPy, SQL

**MLOps:** Docker, Git, Airflow, MLflow, GitLab CI/CD, Prometheus, Grafana

## WORK EXPERIENCE

---

**ML Engineer** *RT-Information Security* | Dec 2024 – Present

- Development and implementation of ML models for automating SOC center processes.
- Design and implementation of data collection and enrichment systems for model operation.
- Deployment of infrastructure components for production model operation.
- Documentation automation and metrics monitoring.

## PROJECTS

---

**Claw Engine: AI Module** *HSE*

- Developed a library for training game agents using SAC and integrated it into Unity.
- Created a service for summarizing game reviews for game designers.
